

Seville Specification

Designed by Katerina Zachariades

Contemporary and classic, Seville is an elegant lounge seating collection with a distinctive shape to the back and long sweeping curve on the arms reminiscent of a vintage style. The lounge chairs are complemented by matching dining chairs and a bar stool and are available with both loose seat cushion and faux seat detail.

The Seville high back is an interpretation of the traditional wing chair and club chair with a contemporary look. With button back upholstery detail, the Seville wing chair and sofa collection offer a distinguished presence and a flowing elegant profile.
