

Integrated Power

Many of our collections seamlessly integrate power solutions. From armrests and headrests in the Manhattan collection, to most recently within the upholstery of the Brompton, Manhattan, Ribb, Verona, and Valencia seating collections.

These designs combine elegance and luxury with the practicalities of modern life, offering options such as three-pin sockets, USB ports, and Aircharge.

Porthole

CMD Black

CMD White

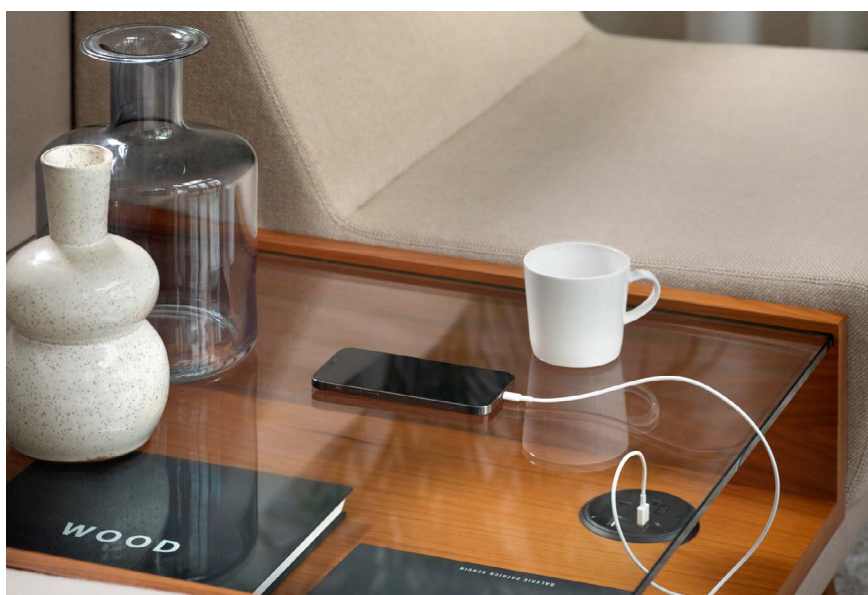

The showcased units are CMD Ltd's Porthole 4 power modules (90FC01BGST). Each module includes one 13A UK power socket and twin 4A USB ports and is available in black, white, or grey.

Each unit includes 1 x UK Power Socket with a 2m lead, 1m Wieland Connector Lead, and 2x USB (Data) ports with a 2m USB lead. Available in Black (PW-B), Grey (PW-G) or White (PW-W).

Available on Brompton, Manhattan, Ribb, Valencia, and Verona, excluding MN5, MN1, MN2, MN3, MN15, MN3TL, MN3TR, and MN3TC.

Valencia

Manhattan MN3T

Aircharge

AirCharge

AirCharge is a wireless charging solution designed for smartphones and portable tech gadgets.

The AirCharge wireless charging solution features an aluminium trim with a fascia available in Black (AC-B) or White (AC-W) and includes a 2m USB lead.

The Manhattan collection offers the option of AirCharge points for an additional cost; simply add "AC" to the product code. Available on the Manhattan collection, excluding MN5, MN1, MN2, MN3, MN3TL, MN3TR, MN3TC.
