

# Rakino

Designed by Tim Rundle

Rakino is a luxurious collection that blends minimalist design with architectural elegance. Soft, flowing joints are balanced with a clean angular profile, imbuing every piece with a quiet, confident modernity. Manufactured using both CNC machinery, hand finished techniques, the collection offers a delicate sturdiness in both its seating and table variants, which can be tailored to use complex upholstery and timber or stone finishes. Rakino is a timeless, aesthetically simple, but technically complex collection offering two lounge chairs, three dining chairs, a selection of coffee tables and dining tables.
