

Lean manufacturing maximises productivity while minimising wastes.

We are actively committed to preventing any negative impact on the environment, leading the way for a more positive, sustainable British manufacturing landscape.

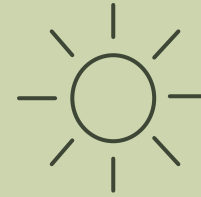

We utilise our own timber and sawdust waste to heat our factory

We offer reupholstery services to increase the longevity of our seating

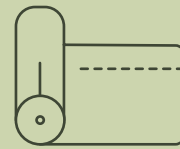

192 solar panels installed covering **40%** of our annual electricity consumption*

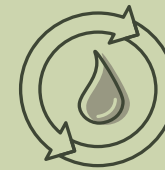

LED lighting implementation resulted in a **68% reduction** in lighting consumption

We use recyclable packaging and blankets to wrap our furniture

Actively pass on fabrics remnants to colleges and charities in need

A watermiser system, has resulted in a **75% reduction** in water consumption

Gas consumption has **decreased by 95%** over the last decade, thanks to increased efficiencies.

FSC or PEFC Timber
[Ash, Beech, Oak and Walnut]

VOC-free lacquers available

Our UK factory achieved **A' level rating** on our EPC**

We have been ISO14001 accredited since 2010

*avoiding 36,733 kg of CO₂ emissions each year

**Energy Performance Certificate
